

Exporting a collection as a JSON File

```
> show collections
> use sample
switched to db sample
> show collections
companies
fs.chunks
fs.files
person
> exit
bye
azureuser@mongodb:~/mongo-downloads$ mongoexport --collection=person --db=sample --out people.json
2023-03-06T15:08:11.562+0000    connected to: mongodb://localhost/
2023-03-06T15:08:11.565+0000    exported 5 records
azureuser@mongodb:~/mongo-downloads$ ls
people.json  sample.txt
azureuser@mongodb:~/mongo-downloads$ cat people.json
